Name	Job Title	Qualifications / Experience Relevant to the Project

NOTES ON THE PREPARATION OF APPLICATION FORMS

These guidelines have been prepared to assist with the preparation of applications for research funding from the Trust. The following details are requested for each project.

Information presented should be kept as brief as possible, but still provide complete project information.

Information presented in the “Application Form” will be used for inclusion in the annual report, presentation to the media, and administration purposes.

1. The original and four copies of each application must be submitted to the Trust.
2. Each project must submit an annual progress report for inclusion in the Trust’s Annual Report, as well as a final report which must include an executive summary. The Trust will seek to publish final reports, but will not normally retain copyright over the information. All final reports will be refereed before publication as “Research Reports”. Due acknowledgement of Trust contributions will be sought in all publications relating to the project. Refereed scientific publications will also be accepted as final reports.
3. One original and two copies of each final report must be submitted to the Trust at the completion of the project.
4. Grants are not intended to substitute existing sources of funds.
5. Projects will not be funded for a period of more than three years, beyond which an application for a new project must be submitted.
6. Milestone payments are made in line with approved project outline and milestone schedule.
7. Public statements relating to the research project and its results must be discussed with the Trust prior to release of the information.
8. The Trust reserves the right to seek referees should the Trust deem this appropriate.
9. The Trust’s decision is final in all matters relating to the calling for applications, project approval, funding arrangements and report publication, and reserves the right to terminate any project that, in the opinion of the Trust, is not meeting the project objectives as outlined in the proposal.
